## Hernesman's Tabbed to Lead Nease HS Program

**JACKSONVILLE, FL, 5/11/19**— Hugh and Stephanie Hernesman have been selected by Nease High School Athletic Director Matt McCool to lead the Nease High School (Ponte Vedra, FL) Volleyball program.

"We're extremely excited to lead the Nease Volleyball program. As the sport of volleyball continues to grow in St. John's County and the greater Jacksonville area, there is great potential for Nease to continue its ascension into one of the best programs in the area. More importantly, this is an incredible opportunity to lead young female athletes and help develop them into high character young adults that will be tremendous role models for younger generation female athletes to come after them. We're eager to get started and begin to develop our program's positive, learning culture. We've had the opportunity to learn from some great coaches during the course of our 20+ years of coaching and look forward to getting in the gym and helping our athletes achieve their volleyball goals", said Hernesman.

**"We want our club members and families to know that this will in no way affect Jacksonville Skyline and our plans or commitment to the club. Steph and I are 100% committed to Skyline and will continue to do our best to provide our athletes with the best possible training they can receive. We expect the club to continue the growth we've seen in the last 18-months and anticipate serving even more athletes and providing additional teams for the 2019-20 season,"** commented Hugh Hernesman.
